

RESOURCE POLICY STUDIES

May 10, 1978

(36)

1119 PENNSYLVANIA
BOULDER, CO 80302

000024474

Dear Mr. Pennington;

Below please find summary of testimony for May 24, 1978, public hearing on the draft environmental impact statement for Rocky Flats Plant. Points raised include: (with numbering from your hearing notice dated 19th April): (1) the mission and location of the Rocky Flats Plant, (5) environmental monitoring, analysis and standards, and (9) energy conservation. Presentation will require 20 minutes.

1. Testimony concerns environmental and spatial impact assessment of Rocky Flats Plant through resource management, land use, and location theory. The effects of 6550 acres total and 384 acres built environment at Plant site on natural and social features is examined:
 - A) Attention is focused on questions of permanent versus transient deployment of land resources.
2. Testimony correlates aspects of radioactive contamination of resources to valuation and planning policy.
3. Testimony reviews natural resources incumbent to Plant vicinity with reference but not limited to DEIS and Staff Statement; factors including:
 - A) Scenic beauty.
 - B) Open space.
 - C) Wilderness and Wildlife.
4. Testimony reviews social resources incumbent to Plant vicinity with reference but not limited to DEIS and Staff Statement;
